Date of Birth: 12.06.1969

PROFESSIONAL SKILLS

Business Analysis, Requirements Engineering, Software Development, Data Analysis, Migration
Life Insurance, Riester, Health Insurance, Property Insurance, Funds
Actuarial Mathematics, Calculation Engine, Commission, Sales, Human Resources

TECHNICAL SKILLS

C#, Java, ASP.NET, HTML, CSS, JavaScript, TypeScript, Angular, SQL, SAS, VB.NET, VBA
Visual Studio, Git, GitLab, Bitbucket, SQL-Server, MySQL, Access, Excel, Word, Microsoft Azure
msg.Life Factory, msg.Commission, msg.Zulagenverwaltung, msg.Insurance Suite
SAP Business Partner, Allianz Business System Life (ABS Life)
SAP S/4HANA, Datawarehouse (DWH), Databases, Interfaces, GDV-Format, BiPRO
Scrum, Jira, Xray, Confluence, HP Quality Center, HP PPM, BPMN

LANGUAGES

German (native language)
English (fluent)
French (basic knowledge)

CERTIFICATES

Certified Professional for Requirements Engineering (IREB CPRE)

English level B2

PROJECTS

5/2020 to
8/2024

Viridium Gruppe

Business Analyst and Software Developer

MIGRATION ZURICH DEUTSCHER HEROLD LEBENSVERSICHERUNG

- Preliminary study in terms of sales subjects
- Data deliveries from policy system msg.Life Factory, commission system msg.Commission, partner system SAP BP, payment system SAP FS-CD via a datawarehouse SAP S/4HANA into a Zurich distribution portal and into Zurich distribution systems
- Data delivery from policy system msg.Life Factory into a Zurich commission system via a datawarehouse SAP S/4HANA incl. data for Riester pension, basic pension and company pension
- Migration and current synchronisation of broker data from Zurich systems to commission system msg.Commission

MIGRATION GENERALI LEBENSVERSICHERUNG

- Data deliveries from policy system msg.Life Factory, commission system msg.Commission, partner system SAP BP, payment system SAP FS-CD via a datawarehouse SAP S/4HANA into distribution systems and distribution portals of Generali and Deutsche Vermögensberatung AG by web services and daily file transfers e.g. to Azure Cloud
- Migration and current synchronisation of broker data from Generali and DVAG systems to commission system msg.Commission

Technics: SQL, BiPRO, GDV-Format, GitLab, Jira, Xray, Confluence, msg.Life Factory, msg.Commission, msg.Zulagenverwaltung, msg.Insurance Suite, SAP BP, SAP FS-CD, SAP S/4HANA

6/2018 to
4/2020

C.H.Beck

Software Developer

WEBSITE BECK-ONLINE

- Implementation of website *beck-online*

Technics: ASP.NET, C#, HTML, CSS, JavaScript, jQuery, SQL-Server, Visual Studio, Git, Bitbucket, Jira, Confluence, Scrum

INVOICE APPLICATION

- Implementation of an invoice application using VB.NET following a legacy application in Visual Basic 6.0 and new requirements

Technics: VB.NET, SQL-Server, Visual Studio, Git, Bitbucket, Jira, Confluence

1/2018 to
5/2018

Generali Deutschland AG

Software Developer

HUMAN RESOURCES

- Agile Implementation of an application for maintaining personal data, calculation of payments and creating personalized letters

Technics: Visual Basic, SQL, Access, Excel, Word

12/2017

Günzburger Steigtechnik Munk GmbH

Software Developer

GROSS MARGINS

- Development of an application for calculating gross margins per customer

RANGES

- Development of an application for calculating ranges per article

Technics: Visual Basic, SQL, Access, Excel

9/2011 to
11/2017

Allianz Deutschland AG

Business Analyst and Software Developer in Program „Allianz Business System Life“ (ABS Life)

ACTUARIAL PRACTISE / FERMAT

- Initiation of a pension insurance for online sales
- Writing technical drafts for calling the actuarial core in online-, client- and host-processes like calculation of premiums and payments, applications, new policies, dynamic increments of premiums and pensions, ending premium payment, ending duration of policy, inclusion and exclusion of risks, change of premium or payment, statutory equalization of pensions and others
- Business analysis and data analysis for a migration of policy data from a legacy system to ABS Life

FUND MANAGEMANT SYSTEM

- Requirements engineering for the fund management system in unit linked life and pension insurance policies

- Writing technical drafts for processing application, policy, fund switch, fund shift, fund distribution, guarantee funds, closure of funds and customer information and documents

Technics: HP Project and Portfolio Management Center, HP Quality Center, SQL, Java, C, Scrum, agil

10/2010 to
9/2011

Lloyds Banking Group

Business Analyst in department Strategy and Change

BUSINESS ANALYSIS FOR CLERICAL MEDICAL INVESTMENT GROUP LTD.
GERMANY, AUSTRIA AND ITALY

- Analysis of funds and unit linked life and pension insurance policies
- Writing business and technical requirement specifications in terms of guarantee fund, insurance tax, money-laundering, sales portal, BiPRO

BUSINESS ANALYSIS FOR HEIDELBERGER LEBENSVERSICHERUNG AG

- Analysis and conception of processing allowances for Riester pensions
- Analysis and conception for a migration into a newer version of policy system msg.Life Factory

Technics: Visual Basic, SQL, Access, Excel, Word, SharePoint, BPMN

3/2002 to
9/2010

Generali Versicherung AG

Business Analyst and Software Developer in department Sales BackOffice

MERGERS

- Process consultancy, requirements engineering, concept, implementation as well as data analysis and migration following the merger of Generali Versicherungen and Volksfürsorge Versicherungen on 1.1.2009
- Process consultancy, requirements engineering, concept, implementation as well as data analysis and migration following the merger of Thuringia Versicherungs-AG and Generali Versicherung AG on 1.1.2003

CALCULATION OF COMMISSIONS

- Analysis of systems with respect to the calculation of commissions
- Concept, development and test of an application for calculating commissions based on an input file, with access to an agents database, with the ability of manual calculation or correction, with data transfer to the payment system

QUALITY ASSURANCE OF COMMISSIONS FOR LIFE AND PENSION INCURANCE POLICIES

- Consulting in introducing legal rules with respect to calculation of commissions for new business in connection with cancellation
- Definition of rules for new business in connection with cancellation

- Concept, development and test of an application for determining new business in connection with cancellation by determining temporal, personal and product relations between new business, cancellations and changes of policies and by regarding such relations in calculation of commissions and in allocation of policies to agents

POLICY DATA

- Analysis, concept, development and test of an application to query policy data with access to host systems, with export to excel, with sums of policy data for one or several agents and with functionality for circulars

CONTRACTS FOR AGENTS

- Analysis of contracts for broker, exclusive agents and employed agents
- Concept, development and test of an application for writing contracts and supplements for agents with data transfer of agent data and commission data from an agent database

CALCULATION OF COMPENSATIONS

- Analysis of current processes in calculation of compensations
- Concept, development and test of an application for calculating compensations according to the principles for the calculation of compensations (§ 89 b HGB)

Technics: Visual Basic, SQL, Access, Excel, Word

1/1999 to
2/2002

EADS Deutschland GmbH

Software Engineer in project „Fregatte F124“

SOFTWARE DESIGN FOR THE MAN MACHINE INTERFACE

- Data modelling based on the customer's software requirements regarding the major data model of the project
- Writing software design
- Creating test plans
- Change management

Technics: Tool for data modelling, software development and test

10/1998 to
12/1998

Dominikus-Ringeisen-Werk Ursberg

Software Developer

SEMINAR INFORMATION SYSTEM

- Development of an application for planning courses with functionalities of accounting and circulars

ADRESS MANAGEMENT SYSTEM

- Development of an application for managing data of employees and customers with import and export functions

PLANNING OF ACTIONS

- Development of an application for allocating employees to actions and target-performance comparisons

Technics: Visual Basic, SQL, Access

1/1995 to
9/1998

Hallesche Krankenversicherung a.G.

Actuary in area product development

PRODUCT DEVELOPMENT

- Development and adjustment of health insurance products
- Analysis and creating a mathematical model for shift of covering funds in case of product change
- Development of a product database
- Migration of a legacy system into the new product database
- Analysis, concept, development and test of an application for the calculation of new products and adjustment of existing products, analysis of effects for the portfolio of contracts, transfer of products to the product database

Technics: SAS, Visual Basic, SQL, Access

EDUCATION

1988 to
1994

Universität Ulm

STUDIES OF MATHEMATICS, ECONOMICS AND INFORMATICS

- with special subjects financial mathematics and actuarial economics
- with certificate „Diplom Wirtschaftsmathematik“

FURTHER EDUCATION

9/2024  International Requirements Engineering Board (IREB)

CERTIFIED PROFESSIONAL FOR REQUIREMENTS ENGINEERING (CPRE)
